### Opis produktu

This recording comes from a one-off tape containing unreleased Uruk-Hai / Burzum material spanning from 1988-1994. The tape was sent by Varg from prison to the ex-label boss of Misanthropy Records in 1994 and later given to her friend at the Burzum Museum. The recording was uploaded to the internet for the public to finally hear in 2018 by the Burzum Museum in low quality and with added noises such as bell sounds throughout the recording.

This is the first time these recordings have been heard in their full undamaged quality.
