CRYPTIVORE is a one-man old-school death metal band based in Brisbane, Australia! Its concept started in 2015 and focuses on pushing musical boundaries, mixing riff-based Death Metal with Grindcore to create a sound that is both familiar and unique!

Recorded between 2018 and 2021, Celestial Extinction is CRYPTIVORE's debut full-length album, with 10 killer tracks that see the band continue to progress and evolve. Recommended for fans of AMORPHIS, CARCASS, ROTTREVORE, and GRAVE!
