Opis produktu

Dark Horizon Records in conspiracy with Putrid Cult Records are honored to announce... FADHEIT "Inhaling The Trauma". An album of Depressive and Suicidal Black Metal. For those who gaze downward while holding the razor to your wrist! The instruments are beautifully tragic, with depressive interluding segments, and vocals that are bleak with a feeling of rage, insanity, and despair. Leading the listener on a journey of suffering, desperation, resistance, and madness through well-crafted Depressive Black Metal. Inspiring dark thoughts, self-loathing, and sorrow, while leaving one to brood over life, regrets, and struggles.
