## Opis produktu

Intus Mortem was born in the 2021 into abyss and void. From the mind of XeS (Infernal Angels, Deathcult , Byblis, Lamasthu) and Nokturnal (Ad Omega, Lamasthu). The sound is inspired by the black metal most brutal and fast, in the spirit of swedish sound. At the beginning of this 2022 the band recorded the first full-length album with 7 songs of pure black metal.
